Precice Visiting
Surgeon Program

nuvasive.com

About the course

Objective

The objective of this course is to review the considerations and indications, surgical decision making, surgical approach and technique for intramedullary limb lengthening.

Target surgeon group

The target surgeon is an orthopaedic-trained surgeon, wishing to focus on intramedullary limb lengthening and participate in a concentrated hands-on workshop and live surgery to review the methods of implantation of Precice.

Expectation

The attending surgeon will receive an overview of the surgical techniques and an understanding of the indications and when to use such techniques. The surgeon will also learn the use of specialized instrumentation and surgical pearls for implantations.

Note: Attendance is limited to four surgeons.

Agenda

Day 1

| | |
|-------------|---|
| 16:30 | Meet in hotel lobby |
| 16:45–17:45 | Company presentation |
| 17:45–19:30 | Lectures Patient selection Preoperative planning Surgical technique Deformity correction with Precice Tips, tricks and complications Questions and answers Next day patients |
| 20:00 | Dinner |

Day 2

| | |
|-------|---|
| 07:30 | Meet in hotel lobby and proceed to hospital |
| 08:00 | First operation |
