| 15mm   | SST-010-015 | SST-013-015 |
| 20mm   | SST-010-020 | SST-013-020 |

#### Fast Distractor

| Part Description        | Model Number |
|-------------------------|--------------|
| Precice Fast Distractor | PFD1-000     |

#### Step Drills

| Part Description            | Model Number |
|-----------------------------|--------------|
| 5.0mm Step Drill Bit, Large | SDLO-5.0     |
| 5.0mm Step Drill Bit, Small | SDST-5.0     |
| 3.5mm Step Drill Bit, Small | SDST-3.5     |

Rx Only.

The Precice Bone Transport System is intended for limb lengthening, open and closed fracture fixation, pseudoarthrosis, mal-unions, non-unions, or bone transport of long bones. The Precice Bone Transport System is composed of an implantable intramedullary nail, locking screws, reusable instruments, and a hand-held External Remote Controller (ERC). The Precice System is a sterile, single-use device that is surgically implanted using the instruments and locking screws for osteoplasty lengthening and bone transportation utilizing distraction osteogenesis and compression. The ERC is used daily after implantation to non-invasively adjust the position of the distraction rod.
